

Tempest 4 (T4) Charging or Total Loss USB Programmable Yamaha GP1200 Ignition

Introducing the Tempest 4 (T4) Ignition for the Yamaha GP1200. The first and only ignition designed for the GP1200. The Ignition is packed with features and capabilities beyond what you ever thought possible. The T4 GP1200 Ignition truly is the leading edge in ignition technology.

The T4 Yamaha GP1200 Ignition brings together a high-output-energy ignition, multiple ignition timing curves, sophisticated rev limiters, and system diagnostics. All features are user programmable via a laptop and USB port. With the Advent T4 Ignition on your team, you will pull ahead of the competition.

Features List

- Fully user programmable using the Curve Devil® program
- Easy programming via USB cable connection
- Four switch-selectable engine timing curves
- Ignition timing curve fitted into 162 points for ultra smooth operation
- Two user configurable selector switches
- Single and dual stage rev limiter
- Hole shot (starting line) limiter, (optional handle bar switch required)
- Built-in diagnostic LED indicators
- Operates as charging or total loss
- Three water or general purpose control outputs
- Over four times more spark energy than the stock ignition
- Uses stock flywheel, pickups (3) and ignition coils
- Ignition has connector allowing easy removal for programming

100% User Programmable

Data input and programming via Curve Devil® ignition control editor

Curve Devil® is a user friendly, Windows 98, 2000, XP Vista OS

With Curve Devil® you can input all required data, edit data and program any T4 ignition

Curve Devil® is available on the Advent web site and is free to use by anyone

T4 Ignition programming is done using standard USB cable

Engine Compatibility

The Tempest 4 GP1200 Ignition is installed inside the electrical box and is completely compatible with the stock flywheel and trigger pickup.

Specifications:

Altimeter:	Optional module required
Power requirements:	2.5A @ 9000rpm
Total Loss run time:	Up to 10 hours at full speed riding on a single battery charge
Electrical connection:	T4 pluggable connector / cable
Diagnostics:	Two LED indicators for trouble-shooting
Programming:	Curve Devil® windows application (no cost)
